

KAGNA EM

Data Analyst | Data Insights | Power BI | SQL | Excel | Python

Auckland, New Zealand | 021 686767 | kagnaem@gmail.com | NZ Citizen | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Data Analyst with hands-on experience building dashboards, business reporting, data visualisations, and automated reporting workflows across retail, enterprise, and nonprofit environments. Skilled in Power BI, SQL, Python, Excel, data modelling, and data quality, with experience translating sales, inventory, customer, billing, and operational data into practical insights for business decisions.

TECHNICAL SKILLS

Analytics & BI	Power BI, DAX, Python, Power Query, Excel, Looker Studio, KPI reporting, dashboard design, retail and stakeholder insight
Retail & Operational Data	POS data, Shopify, sales data, inventory data, customer behaviour, product movement, operational performance tracking
Data Modelling & Data Quality	Semantic models, data validation, source-to-report mapping, calculated tables, forecasting, data quality checks
Data Platforms & Systems	Microsoft Fabric, Dataflow Gen2, Lakehouse, OneLake, Azure, SQL, Dataverse, SAP, CRM Dynamic , Google Cloud
AI & Automation	Generative AI, AI-assisted analytics, prompt engineering, Microsoft Copilot, workflow automation

CORE STRENGTHS

Data analysis & reporting: Turning sales, inventory, customer, donor, billing, and operational data into dashboards, KPIs, structured reports, and practical business insight.

Data modelling & quality: Cleaning, validating, modelling, and documenting data so reporting outputs are reliable, explainable, and useful.

Stakeholder communication: Translating technical findings into clear documentation, dashboard narratives, process maps, and recommendations for mixed audiences.

PROFESSIONAL EXPERIENCE - NEW ZEALAND

Data Analyst – Business Optimization | Kordia New Zealand (full-time intern) | Apr 2026 - Jun 2026

- Reviewed BizOps billing and exception reporting pain points, including limited source visibility, complex semantic model dependencies, overlapping use cases, and manual validation effort.
- Documented the end-to-end billing and reporting ecosystem across CRM, SAP, ServiceNow, Datagate, SharePoint, supplier systems, Microsoft Fabric, and Power BI.
- Mapped source-to-report data flows to improve traceability, source-of-truth clarity, and understanding of reporting dependencies.
- Redeveloped a cross-source data model linking data from multiple systems and refined complex DAX logic to support billing, reconciliation, and exception-reporting use cases.
- Proposed a trial Microsoft Fabric ecosystem with centralised storage, reusable tables, and a simplified cross-source data model.
- Developed a Power BI prototype to demonstrate improved billing visibility, reconciliation, validation, and future automation opportunities.
- **Key Achievement:** Proposed and prototyped a trial Microsoft Fabric and Power BI solution that transformed a complex semantic-model-driven reporting environment into a more centralised, traceable, and reusable reporting model, with refined DAX logic and cross-source data modelling to support better billing visibility, reduce manual validation effort, and lower billing leakage risk.

Data Insights Volunteer - Tearfund New Zealand (part-time) | Dec 2024 - May 2025

- Built Excel and Power BI reports for Marketing and Partnership teams, improving access to donor, campaign, and performance insights.
- Developed Microsoft Fabric dataflows and pipelines for automated reporting and repeatable data preparation.
- Analysed donor trends, RFM segmentation, engagement patterns, and performance tracking to support planning and decision-making.
- **Key Achievement:** Delivered interactive dashboards integrating multiple data sources and quarterly forecasts, improving reporting efficiency, data accessibility, self-service insight, and budget planning support for business teams.

Data Management Consultant - Norris Echetebu Law, NZ (contract) | Oct 2024 - Jan 2025

- Designed a practical data management solution using Excel, Power Query, Power Pivot, and validation rules.
- Integrated the solution into Microsoft Teams and created user guidance to improve collaboration, data access, and team adoption.
- **Key Achievement:** Resolved a long-standing data challenge by creating a user-friendly reporting workflow that improved data consistency and day-to-day efficiency.

Digital Literacy Coach - Digital Seniors Auckland (volunteer) | May 2023 - Sep 2024

- Supported users with varied digital skills, strengthening communication, coaching, and practical problem-solving.
- **Key Achievement:** Helped users build confidence with digital tools and CRM onboarding by explaining technical concepts clearly to non-technical audiences.

Data Evaluator - Peroptyx Ltd, NZ (contract) | Jul 2023 - Jan 2024

- Reviewed and validated AI-generated location and business data against defined quality standards.
- **Key Achievement:** Supported reliable NZ-specific outputs by assessing data accuracy, completeness, and consistency across location and business records.

Business Partner - Vegeland Market Ltd, NZ | Sep 2017 - Sep 2022

- Managed POS, Shopify, sales, and inventory data to support stock visibility, retail performance tracking, and operational decisions across physical and online channels.
- **Key Achievement:** Supported migration from manual registers to a POS system, improving sales and inventory data capture and contributing to 20%+ revenue growth through better retail visibility, stock control, and operational decision-making.

EDUCATION

- NZQA Level 6 - AI-Powered Data Analyst Diploma - Mission Ready HQ (Jun 2026)
- NZQA Level 7 - Business Intelligence in Analytics - Future Skills Academy (Jan 2024)
- Bachelor of Computer Science - Royal University of Phnom Penh
- Master of Social Policy - The University of Melbourne

CERTIFICATIONS & TRAINING

- NZQA Level 7 – AI & Digital Skills for the Workplace, AcademyEX, New Zealand | Aug 2025
- Data Analytics in Google Cloud, Google | Jun 2025
- Excel for FP&A, LinkedIn & PMI | Sep 2025
- Data Analytics with BigQuery & Looker Studio | Aug 2024
- Python Statistics | Aug 2024 , SAP ERP Essential Training | Aug 2024

PROFESSIONAL DEVELOPMENT

- Bilingual Interpreter, TransNational NZ - helping people facing language barriers
- Continuous learning in data analytics, cloud platforms, AI, and data engineering
