

KAGNA EM

Data Analyst | Data Insights | Power BI | SQL | Microsoft Fabric | Python

Auckland, New Zealand | 021 686767 | kagnaem@gmail.com | NZ Citizen | [LinkedIn](#) | [GitHub Portfolio](#) | [Website](#)

Data Analyst who bridges data, business, and people. Skilled in Power BI, SQL, Excel, Python, Microsoft Fabric, Power Query, data modelling, and data quality, with experience solving complex data problems and improving source-to-report traceability, reporting reliability, and business decision-making. Strong interest in roles that connect analytics, data governance, and data engineering to build reliable data foundations and useful business insights.

TECHNICAL SKILLS

- **Analytics & BI:** Power BI, DAX, Python, Power Query, Excel, Looker Studio, KPI reporting, dashboard design, retail and stakeholder insight
- **Retail & Operational Data:** POS data, Shopify, sales data, inventory data, customer behaviour, product movement, operational performance tracking
- **Data Modelling & Data Quality:** Semantic models, data validation, source-to-report mapping, calculated tables, forecasting, data quality checks
- **Data Platforms & Systems:** Microsoft Fabric, Dataflow Gen2, Lakehouse, OneLake, Azure, SQL, Dataverse, SAP, Dynamics 365 CRM, Google Cloud; exposure to data orchestration, medallion architecture concepts, and data warehousing
- **AI & Automation:** Generative AI, AI-assisted analytics, prompt engineering, Microsoft Copilot, workflow automation
- **Documentation & Collaboration:** Confluence, Miro, Jira, ClickUp, Zapier, Microsoft Copilot

CORE STRENGTHS

End-to-end delivery: Taking a reporting problem from messy source data through to validated, decision-ready reporting across retail, enterprise, and nonprofit settings.

Cross-functional translation: Bridging technical and non-technical stakeholders, turning ambiguous business questions into clear metrics and complex data logic into plain-language recommendations.

Adaptability: Ramping up quickly on new tools, data systems, and industries - from retail data platforms to enterprise systems.

PROFESSIONAL EXPERIENCE - NEW ZEALAND

Data Analyst - Business Optimisation | Kordia New Zealand (full-time intern) | Apr 2026 - Jun 2026

- Reviewed billing and exception-reporting pain points across Business Optimisation department, including limited source visibility, complex semantic model dependencies, overlapping use cases, and manual validation effort.
- Mapped and documented source-to-report data flows across CRM, SAP, ServiceNow, Datagate, SharePoint, Microsoft Fabric, and Power BI to improve traceability and source-of-truth clarity.
- Reviewed existing semantic models and reporting structures to identify complexity, duplication, maintainability issues, and opportunities to simplify reporting design.
- Redeveloped a cross-source data model and refined complex DAX logic to support billing, reconciliation, and exception-reporting use cases.
- Proposed and prototyped a trial Microsoft Fabric ecosystem with centralised storage, reusable tables, and a Power BI solution demonstrating improved billing visibility, reconciliation, and validation.
- **Key Achievement:** Designed and prototyped a Microsoft Fabric and Power BI solution that reframed a complex semantic-model-driven reporting environment into a more centralised, traceable, and reusable reporting model, with potential to reduce manual validation effort and billing leakage risk.

Data Insights Volunteer - Tearfund New Zealand (part-time) | Dec 2024 - May 2025

- Built Excel and Power BI reports for Marketing and Partnership teams, improving access to donor, campaign, and performance insights.
- Developed Microsoft Fabric dataflows and pipelines for automated reporting and repeatable data preparation.

- Developed quarterly forecasting model and analysed donor trends, RFM segmentation, engagement patterns, and performance tracking to support planning and decision-making.
- **Key Achievement:** Delivered interactive dashboards integrating multiple data sources and quarterly forecasts, improving reporting efficiency, data accessibility, self-service insight, and budget planning support for business teams.

Data Management Consultant - Norris Echetebe Law, NZ (contract) | Oct 2024 - Jan 2025

- Reviewed client file and data management pain points resulting from inconsistent data handling and limited structure.
- Designed a practical data management solution using Excel, Power Query, Power Pivot, and validation rules.
- Integrated the solution into Microsoft Teams and created user guidance to improve collaboration, data access, and team adoption.
- Documented repeatable processing and validation procedures to maintain ongoing data quality.
- **Key Achievement:** Resolved a long-standing data challenge by creating a user-friendly reporting workflow that improved data consistency and day-to-day efficiency.

Digital Literacy Coach - Digital Seniors Auckland (volunteer) | May 2023 - Sep 2024

- Supported users with varied digital skills, strengthening communication, coaching, and practical problem-solving.
- **Key Achievement:** Helped users build confidence with digital tools and CRM onboarding by explaining technical concepts clearly to non-technical audiences.

Data Evaluator - Peroptyx Ltd, NZ (contract) | Jul 2023 - Jan 2024

- Reviewed and validated AI-generated location and business data against defined quality standards.
- **Key Achievement:** Supported reliable NZ-specific outputs by assessing data accuracy, completeness, and consistency across location and business records.

Business Partner - Vegeland Market Ltd, NZ | Sep 2017 - Sep 2022

- Managed POS, Shopify, sales, and inventory data to support stock visibility, retail performance tracking, and operational decisions across physical and online channels.
- **Key Achievement:** Supported migration from manual registers to a POS system, improving sales and inventory data capture and contributing to 20%+ revenue growth through better retail visibility, stock control, and operational decision-making.

EDUCATION

- NZQA Level 6 - AI-Powered Data Analyst Diploma - Mission Ready HQ (Jun 2026)
- NZQA Level 7 - Business Intelligence in Analytics - Future Skills Academy (Jan 2024)
- Bachelor of Computer Science - Royal University of Phnom Penh
- Master of Social Policy - The University of Melbourne

CERTIFICATIONS & TRAINING

- NZQA Level 7 – AI & Digital Skills for the Workplace, AcademyEX, New Zealand | Aug 2025
- Data Analytics in Google Cloud, Google | Jun 2025
- Excel for FP&A, LinkedIn & PMI | Sep 2025
- Data Analytics with BigQuery & Looker Studio | Aug 2024
- Python Statistics | Aug 2024
- SAP ERP Essential Training – LinkedIn Learning, Aug 2024

PROFESSIONAL DEVELOPMENT

- Bilingual Interpreter, TransNational NZ - helping people facing language barriers
- Continuous learning in data analytics, data engineering, cloud platforms, and responsible AI
