

KAGNA EM

Data Analyst / Analytics Engineer | Power BI | SQL | Microsoft Fabric | Python

Auckland, New Zealand | 021 686767 | kagnaem@gmail.com | NZ Citizen | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Data Analyst / Analytics Engineer with hands-on experience building business reporting, semantic models, automated dataflows, and Microsoft Fabric-based analytics solutions. Recent Kordia experience includes mapping multi-system billing data, designing a Fabric Lakehouse and OneLake reporting architecture, developing Power BI semantic models and DAX logic, and documenting end-to-end data flows for technical and business stakeholders.

TECHNICAL SKILLS

Analytics & BI	Power BI, DAX, Python, Power Query, Excel, Looker Studio, KPI reporting, dashboard design, stakeholder insight
Data Engineering & Cloud	Microsoft Fabric, Dataflow Gen2, Lakehouse, OneLake, pipelines, Azure, SQL, API integration, Dataverse
Data Modelling & Quality	Semantic models, star-schema modelling, calculated tables, data validation, source-to-report mapping, forecasting
Enterprise Systems	Microsoft Dynamics 365 CRM, SAP S/4HANA / SAP ERP, ServiceNow, Datagate, Shopify, POS systems, Google Cloud
AI & Automation	Generative AI , AI-assisted analytics, Prompt engineering , Microsoft Copilot, workflow automation

CORE STRENGTHS

Analytics engineering: Bridging business requirements with reliable reporting layers, semantic models, dataflows, and repeatable analytics workflows.

Data integration: Mapping and connecting operational data from CRM, ERP, Service Now, supplier, retail, and cloud-based platforms.

Business communication: Producing data-flow diagrams, process maps, documentation, dashboards, and recommendations for mixed technical audiences.

PROFESSIONAL EXPERIENCE - NEW ZEALAND

Data Analyst - Kordia New Zealand (full-time- Intern, analytics engineering focus) | Apr 2026 - Jun 2026

- Analysed billing and exception-reporting processes across Power BI, Microsoft Fabric, OneLake, semantic models, and operational systems to improve reporting reliability and visibility.
- Designed a Microsoft Fabric analytics architecture using Dataflow Gen2, Lakehouse, OneLake, pipelines, and Power BI semantic modelling to support automated reporting.
- Mapped source-to-report data flows across Dynamics 365 CRM / Dataverse, SAP ERP, ServiceNow, Datagate, supplier systems, and reporting layers.
- Developed Power BI dashboards, semantic models, advanced DAX measures, and calculated tables for KPIs, business rules, and exception-reporting logic.
- Produced business-readable architecture documentation, process maps, data-flow diagrams, and future-state reporting artefacts for stakeholders.

Data Insights Volunteer - Tearfund New Zealand (part-time) | Dec 2024 - May 2025

- Built Excel and Power BI reports for Marketing and Partnership teams, improving access to donor, campaign, and performance insights.
- Built and maintained Microsoft Fabric dataflows and pipelines for automated reporting and repeatable data preparation.

- Analysed donor trends, RFM segmentation, engagement patterns, and performance tracking to support planning and decision-making.
- Developed data models, DAX measures, and Python scripts to support reporting, segmentation, and forecasting.
- Delivered 30+ interactive dashboards integrating multiple data sources, improving reporting efficiency and data accessibility.

Data Management Consultant - Norris Echetebe Law, NZ (contract) | Oct 2024 - Jan 2025

- Designed a practical data management solution using Excel, Power Query, Power Pivot, and validation rules.
- Integrated the solution into Microsoft Teams to improve collaboration, data access, and team adoption.
- Created user guidance and resolved a long-standing data challenge with a user-friendly reporting workflow.

Digital Literacy Coach - Digital Seniors Auckland (volunteer) | May 2023 - Sep 2024

- Supported users with varied digital skills, strengthening communication, coaching, and practical problem-solving.
- Assisted with CRM onboarding, customer data handling, and clear explanation of technical concepts.

Data Evaluator - Peroptyx Ltd, NZ (contract) | Jul 2023 - Jan 2024

- Reviewed and validated AI-generated location and business data against defined quality standards.
- Assessed data accuracy, completeness, and consistency to support reliable NZ-specific outputs.

Business Partner - Vegeland Market Ltd, NZ | Sep 2017 - Sep 2022

- Supported migration from manual registers to POS, improving data capture and contributing to 20%+ revenue growth.
- Managed POS and Shopify sales data, monitored inventory across physical and online channels, and used performance data to guide operational decisions.

EDUCATION

- NZQA Level 6 - AI-Powered DATA ANALYST diploma - Mission Ready HQ (Jun 2026)
- NZQA Level 7 - Business Intelligence in Analytics - Future Skills Academy (Jan 2024)
- Bachelor of Computer Science - Royal University of Phnom Penh
- Master of Social Policy - The University of Melbourne

CERTIFICATIONS & TRAINING

- NZQA Level 7 – AI & Digital Skills for the Workplace, AcademyEX, New Zealand | Aug 2025
- Data Analytics in Google Cloud, Google | Jun 2025
- Excel for FP&A, LinkedIn & PMI | Sep 2025
- Data Analytics with BigQuery & Looker Studio | Aug 2024
- Python Statistics | Aug 2024
- SAP ERP Essential Training | Aug 2024

PORTFOLIO, AWARDS & PROFESSIONAL DEVELOPMENT

Portfolio: [GitHub](#) | [Personal Website](#)

- Bright Futures Scholarship, Future Skills Academy, New Zealand, 2023
- Australia Awards Scholarship, Australian Government via DFAT, 2015
- Bilingual Interpreter, TransNational NZ - supporting clear communication for people facing language barriers
- Continuous learning in data analytics, cloud platforms, AI, and Data Engineering
